

Exastro IT Automation Server link/Backup list

Ver1.6

Please refer to the following for the directories where data for Exastro ITA data protection and data linkage between servers (replication, shared disk arrangements, etc.) are stored.

By using the data written below, it is possible to restore Exastro ITA Servers and construct HA Clusters.※1

(※1 The user will have to prepare a server with the same version of Exastro ITA installed for both the source and the destination.)

No.	Path	Access Permission	ITA Link data Application	Function Drivers				Size Information			
				DBMS	backyard	Ansible	Web/AP	Approximate file size	Sizing remarks	Reference Measured value 1 (Approx. 30 days)	Reference Measured value 2 (Approx. 15 days)
1	/(ITA Installation directory)/data_relay_storage/symphony	777	Stores Symphony operation data.		●	●	●	Medium	Depends on the number of executed Symphony operations.	0	0
2	/(ITA Installation directory)/data_relay_storage/conductor	777	Stores Conductor operation data.		●	●	●	Medium	Depends on the number of executed Conductor operations.	6.5M	4.0K
3	/(ITA Installation directory)/data_relay_storage/ansible_driver	777	Stores ansible_driver operation data.		●	●	●	Medium	Depends on the number of executed Movements and the size of the file used.	5.1M	8.4M
4	/(ITA Installation directory)/ita_sessions	777	Session file				●	Small	Depends on the number of access from valid users (amount of sessions). Deleted automatically if the session expires.	4.0K	8.0K
5	/(ITA Installation directory)/ita-root/temp	777	Temporary file		●		●	Small	As this file is deleted daily by default, it only contains 1 day's worth of data. Depends on the amount and file size of the Movements executed that day.	8.0K	0
6	/(ITA Installation directory)/ita-root/uploadfiles	777	Upload File (Stores Ansible Execution logs (zip) etc.)		●		●	Medium-Big	Depends on the amount and file size of the Movements executed.	194M	4.8M
7	/(ITA Installation directory)/ita-root/webroot/uploadfiles	777	Upload File (Icons, etc.)		●		●	Small-Medium	Depends on the amount of menu groups and the file size of the icons used.	900K	1.2M
8	/(ITA Installation directory)/ita-root/webroot/menus/sheets	755	Menu user data		●		●	Small	Contains the User created menu programs.	0	0
9	/(ITA Installation directory)/ita-root/webroot/menus/users	755	Menu user data		●		●	Small	Contains the User created menu programs.	0	0
10	/(ITA Installation directory)/ita-root/webconfs/sheets	755	Menu User data (Saves Parametersheet's loadtable)		●		●	Medium	Depends on the amount of user created menus and items.	1.8M	2.2M
11	/(ITA Installation directory)/ita-root/webconfs/users	755	Menu user data		●		●	Small	Depends on the amount of user created menus and items.	0	0
12	/var/lib/mysql	777	MariaDB Data file	●				Big	Depends on the amount of user created menus and	339M	388M
